ONE WALL STREET

New York. The future of downtown Manhattan. Our OPAL Touch screens cater to every floor of this unique building.

- Screen Active State with available floor mask

- User selects available floors group

- PIN Keypad mode appears

- user enters PIN code

As well as touch, we offer unique solutions, including building foyer and directory boards, with elevator directions.

Riverside Centre is a vibrant business hub in the heart of Brisbane's Golden Triangle' precinct. Pixel Technologies manufactured 5 specifically built 46 inch touch screens to display the buildings tenant names.

When touched the screen displays the lift identification and direction to the correct lift to get to the desired tenant or office.

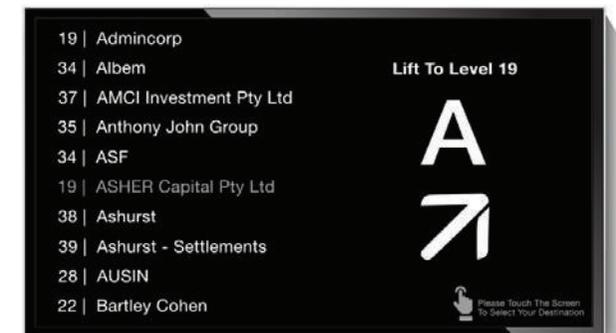

Touch Display Steps

Step one: Walk up to display

Step two: select tenant

Step two: receive directions
